# **Hot Movie Months Need Information On New Releases**

The summer months can offer you the newest DVD and video movie releases. Such months as June and August usually offer the most popular and the best new film releases. Many of the big production studios keep their top releases for these months because children are on holidays and more grown-ups are searching for rental entertainment.

Every Tuesday new films rich the shelves of film fans. So, people who are considered to be movie fans, should know which movies can give the best entertainment. Often, top blockbuster films are in the greatest demand. Nonetheless, often they are named as "B" films, which offer the deepest story line and the best acting.

There are lots of excellent ways to lease films. Big video rental chains such as Hollywood Video and Movie gallery, Family Video, Blockbuster can provide wide selections and freshest hits. Blockbuster and NetFlix provide the two most popular internet video rental programs in spite of the quick developing interest on new firms.

It is very important that movie fans remain tuned with news and recommendations from the entertainment business while also getting to know about the best films that are going to be released. There are various quality movie websites on the internet. Review websites that commonly give some resources concerning films and industry news. They also give great reviews of movies and various viewers suggestions on what to watch and to avoid.

June top movies involve several popular titles that are going to be released: Chaos Theory, The Bucket, The Eye and Jumper. However, the greatest hit of June, without any doubts will be the action film 10,000 B.C. While some movie reviewers ask the depth and entertainment price of this upcoming film, the movie was well-endorsed.

In July and August there will also be a few outstanding movies. When the summer heat develops more interest in open-air entertainments, most people want to have rest from the bright sun sometimes. For popular summer films to be released, look through reviews of new films being released at your local shop.

So, where is the best place to purchase the newest releases?

You will not find them at a "clearance sale". You do not need to buy some low-priced copy. The best way to market a new movie is to release a short preview of the film containing the scenes that have most of the action when a story-teller tells the story line that the film is based on.

Bear in mind that even a new release movie on a DVD will perhaps cost you less than a film ticket (of course, if you see it with a friend). So, do not waste your time looking for bargain that will save you a few dollars.

It is hard to find a modern website that will offer you all the new releases.
